

Listening strategies

Listen to the podcast again

Can you keep track of who said what. Which information and experiences were shared by journalist, Rick Harp and which were from public health inspector, Sandra Hamilton?

Put a check mark in the column in the table under the name of who made the comment. *Answers can be found in the appendix*

	Rick Harp - journalist	Sandra Hamilton – public health inspector
80% of landlords have dealt with bedbugs in the last 5 years.		
Adult bedbugs are the size of an apple seed.		
An early infestation looks like little black dots.		
Bedbugs move fast away from the light.		
If a mattress is in good condition, you just need to vacuum away the bedbugs and put on a cover.		
I have been bitten by a bed bug.		
Pillows can carry bed bugs.		
Bedbugs probably won't multiply in office buildings.		
Bed bugs seem to prefer some people to others.
